

LandAware

the international network on Landslide Early Warning Systems

is glad to present the

LandAware

online workshop 2023

Thursday June 1st, 2023
3 PM CEST (1 PM UTC)

- Keynote lectures on innovative LEWS
- Discussion on data-related issues
- Networking activities for early-career scientists/professionals

CEST TIME

Schedule

15:00 - 15:15	Welcome and Introduction to LandAware
	Invited talks on innovations in landslide early warning
15:15 – 15:35	Kristen Cook (University of Grenoble, France): The use of seismology for real-time landslide detection and mass flow early warning
15:35 – 15:55	Johannes Leinauer (TU Munich, Germany): Displacement data for early warning: forecasting the time of landslides
15:55 – 16:15	Elena Ioriatti (University of Bologna, Italy): Study of debris-flow initiation through the analysis of seismic signals
	Interactive sessions
16:15 - 16:45	Collaborative problem-solving activity: Working on your data-related issues
16:45 - 17:15	Networking and mentoring
17:15 – 17:30	Closing remarks
17:30 - 18:00	Virtual social half hour (for early-career researchers/professionals)

Scientific and organizing Committee: Lisa Luna, Minu Treasa Abraham, Stefano Luigi Gariano
Technical support: WSL, Switzerland
